A. Supporting Tools & Software

Software Compatibility Notes

Please note that the ARRI Reference Tool (ART) has replaced our ARRIRAW Converter (ARC), ARRI Color Tool (ACT) and ARRI Meta Extract (AME).

Please update the ARRI Reference Tool (ART) to the latest available version for best experience when working with ARRI Original Camera Files (ARRICORE, ARRIRAW and Apple ProRes) footage.

Please note, that macOS X version 10.14.4 (or later) is required to successfully transfer data from a Codex Compact Drive with the Codex USB-C Compact Drive Reader, or the SXR Capture Drive Dock with the Compact Drive Adapter. Using older versions of macOS will result in a copy error for files larger than 9.66 GB.

MacOS X version 10.15 (or later) with the Apple MXF plug-in ("Pro Video Formats") should be installed and updated to play back MXF/Apple ProRes footage in Apple QuickTime Player.

Please update to the latest Codex Device Manager.

Please note: Currently ARRI is offering ARRI Image SDK Version 9.0.0-rc3 and ARRI MXF Library Version 4.4.5. Our Partners are being informed constantly about any version updates.

The following table gives you an overview of tools and software, supporting our Original Camera Files or are working on implementation.

Overview

This overview is ‘work in progress’ and will be updated continuously.

Yes
WIP – Work In Progress
No

Manufacturer	Software / Tool	Version Nr. (and later)	Support for								ARRI Image SDK Version
			MXF/ ARRICORE	MXF/ ARRIRAW	MXF/Apple ProRes	ARRIRAW-HDE	ARRI Look File 4	REVEAL for ALEXA 35 ARRIRAW	REVEAL for ALEXA LF & Mini LF ARRIRAW	REVEAL for ALEXA Classic, XT, SXT, ALEXA Mini, AMIRA, ALEXA 65 ARRIRAW
